Presents

THE
GALVENT
BIN VENT FILTER

WHEN WAS THE LAST TIME

You looked to the top of your silos and didn't see a *rusting* eyesore dusting your neighbors with product you could be using?
You didn't *dread* climbing to the top of a silo because you knew you were in for the cramped hassle of changing out filters?
You felt like you actually got your *money's worth* when buying equipment?

MAYBE IT'S TIME to put all that behind you. O.A. Newton's GalVent Filter could let you do just that. We've heard your complaints and have redesigned the Bin Vent Filter from the ground up to be easy to service and to last for years. Our Three Year Warranty is the best in the business; *Triple* the Industry Standard. Our Top Load Design makes switching out cartridges a snap (literally). And we did all this while substantially *lowering* the price to be, once again, the best in the business.

STANDARD FEATURES:

EASY SERVICING WITH NO CONFINED SPACE PERMITTING

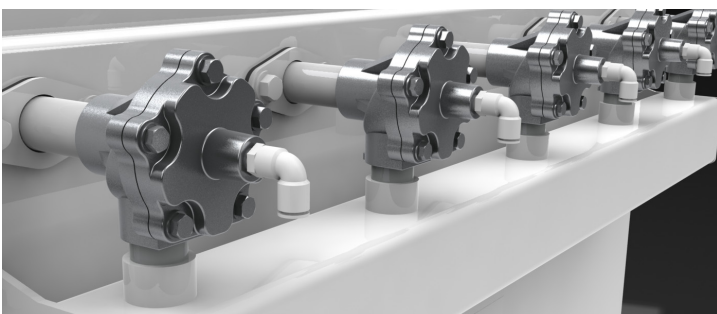

- Top Loading Pleated Cartridges
- Lid Tilts Back Allowing Easy Access For Replacing Cartridges
- All Valves, Gauges, and Electrical Boxes are Located For Easy Access

QUALITY CONSTRUCTION WORTHY OF A 3 YEAR WARRANTY

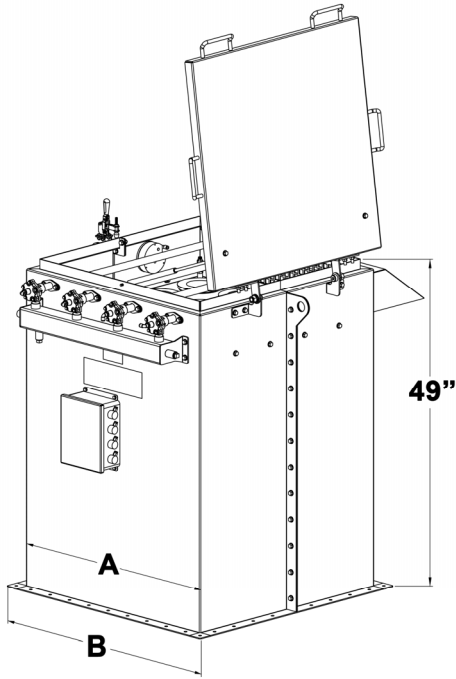

- Laser Precision and Master Workmanship
- Galvanized Construction
- Powder Coated White

SEQUENCING JET PULSE CARTRIDGE CLEANING SYSTEM

**Requires a Clean, Dry Compressed air Supply*

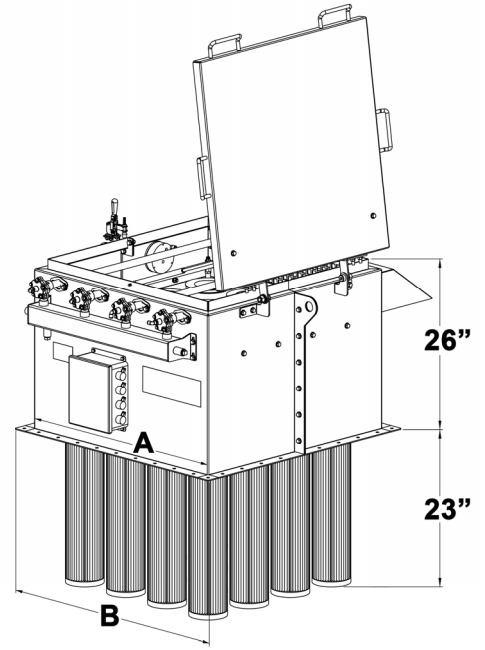

CLASSIC GALVENT

The **GalVent** has three standard sizes to meet your exhaust air requirements. We've also included a Low Profile configuration, where the filters protrude down below the top of the tank for situations where there simply isn't enough room to service the top load filters.

LOW PROFILE GALVENT

Classic Model #	Low Profile Model #	Number of Cartridges	Cloth Area (SqFt)	Air To Cloth Ratio (CFM)				A Shell Width	B Flange Width
				3:1	4:1	5:1	6:1		
BV1000-2809	BV500-2809	9	120	360	480	600	720	28"	32"
BV1000-3616	BV500-3616	16	475	1425	1900	2375	2850	36"	40"
BV1000-4225	BV500-4225	25	740	2220	2690	3700	4440	42"	46"

OUR CONTINUING COMMITMENT to making the Bin Vent Filter better, and the value already seen has made it an easy decision for most of our GalVent owners to come back for more.
